

Advanced AI for NDIS and Aged Care Rostering

Reduce Costs. Boost Efficiency. Stay Compliant.

CareMaster's **AI Roster Optimiser** is transforming the way NDIS and Aged Care providers build rosters. It instantly generates the most efficient, cost-reducing and compliant schedule.

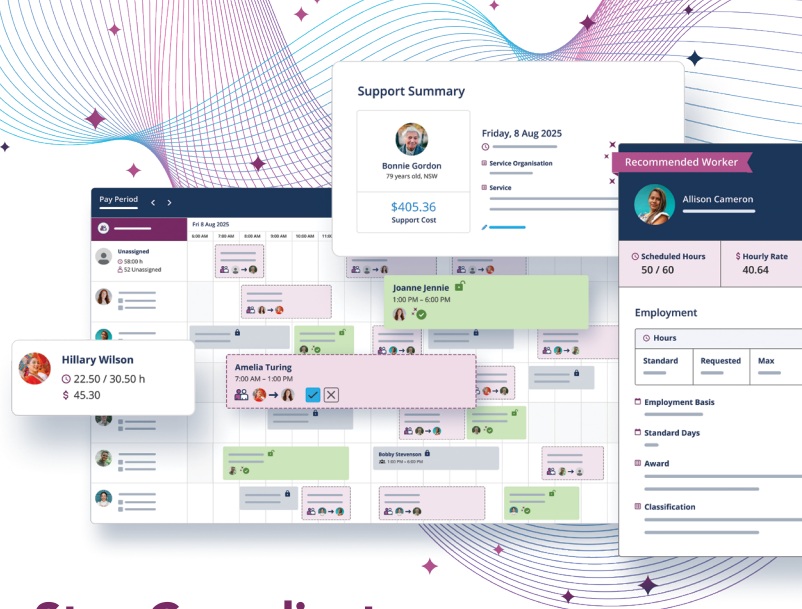

Fast ROI, Real Savings

Our Optimiser exposes hidden costs you've had to absorb or manage through time-consuming, expensive workarounds.

- ✓ Penalty Rates
- ✓ Excess Travel
- ✓ Shift Overlaps
- ✓ Gaps from Cancellations or Leave

Developed to Enhance the Delivery of Care

- 
Instant Roster Adjustments
Respond to cancellations, leave, or urgent requests in real time.
- 
Better Worker-to-Client Matching
Higher satisfaction, improved participant retention.
- 
Unlock Workforce Capacity
Deliver more without increasing headcount.
- 
Enterprise Ready
Simplify complex rostering and adjustments with ease.

What Industry Leaders Are Saying

This is going to be great for rosters—and great to see, as a business owner, how much you save. You don't have to show pay rates—just clearer, smarter rosters that are around 10% more efficient.

Ken, Director, 24Care Australia

Our biggest pain-point—managing ad-hoc changes—is finally addressed. It's smart, fast, and gives our team real options.

**David, Operations Manager
BigDog Support Services QLD**
